GT-250HY / GT-275HY

Leveller/Grader with hydraulic Blade rotation.

- A sturdy hydraulic cylinder, that requires one double-action hydraulic output, is supplied to rotate the blade up to 230°
- Cat II Three point hitch with several hole configurations for the top link, including an oval hole enabling the blade to "float"
- Strong gauge wheels (optional equipment)
- Bolt-on reversible wear strip (standard) and an optional rubber wear strip is available.
- High 60 cm blade, as well as optional side boards for right and/or left side
- Manual offset adjustment 55 cm right / left
- All pivot or hinge points can be lubricated.
- Very strong cutting edge for leveling – and clearing functions.
